Subject: My Public Comments on the Portland,OR Superfund Cleanup

Dear EPA Super Fund Administrators,

Your plan as presented is terrible! I live here. When I heard the plan of simply building a berm and throwing the polluted river bottom muck over the berm, I thought it was a joke. After 16 years of working with the polluters, you think I am going to accept your plan which does very little? This river has been my pride for my entire life. I cross over it on a daily basis and admire our views, our water, water traffic, it is a treasure for the area, and your plan keeps it polluted and dirty.

I want real mitigation. I want local people involved. I want overwhelming support from the people who live here. Right now, your plan does none of this. I do not support the plan.
